This is the third season of the improved gasoline lamp on the market, and it needs no further introduction to the people. They have survived the attacks of lighting corporations and the united efforts of insurance companies to keep them out of the market. They have been tested for argument against their use, but none has been found. They have come to stay. There are different kinds on the market, some good, some bad-we invite comparison on every point,

We Want You

To consider well the proposition and investigate the merits of our production. We have an article that is in universal demand, Everybody uses artificial light. All want the safest, best and most economic. After these three features are satisfactorily demonstrated, then comes the consideration of the durability, material, workmanship, style and finish of the article itself. All of these points are carefully looked after in the construction of our lamp.

We want you to come in and see the
